

## Integrated Accessibility Standards

The Integrated Accessibility Standard Regulation regulates the following three accessibility standards:

Information and Communications

Employment

Transportation

The requirements in the regulation will be phased in between 2011 and 2025. This will give organizations time to integrate the accessibility standards into the organization's processes and practices.

The United Counties of Stormont, Dundas and Glengarry is not responsible for any form of public transportation; therefore this Standard will not be addressed in this plan.

The following section of the Accessibility Plan will deal with the Integrated Accessibility Standards and will be updated annually as part of the overall review of the Counties Accessibility Plan.
