## Criteria for Evaluating Archaeological Potential A Checklist for the Non-Specialist

The purpose of the checklist is to determine:

- if a property(ies) or project area may contain archaeological resources i.e., have archaeological potential
- it includes all areas that may be impacted by project activities, including – but not limited to:
  - the main project area
  - temporary storage
  - staging and working areas
  - temporary roads and detours

Processes covered under this checklist, such as:

- *Planning Act*
- *Environmental Assessment Act*
- *Aggregates Resources Act*
- *Ontario Heritage Act* – Standards and Guidelines for Conservation of Provincial Heritage Properties

### Archaeological assessment

If you are not sure how to answer one or more of the questions on the checklist, you may want to hire a licensed consultant archaeologist (see page 4 for definitions) to undertake an archaeological assessment.

The assessment will help you:

- identify, evaluate and protect archaeological resources on your property or project area
- reduce potential delays and risks to your project

**Note:** By law, archaeological assessments **must** be done by a licensed consultant archaeologist. Only a licensed archaeologist can assess – or alter – an archaeological site.

What to do if you:

- **find an archaeological resource**

If you find something you think may be of archaeological value during project work, you must – by law – stop all activities immediately and contact a licensed consultant archaeologist

The archaeologist will carry out the fieldwork in compliance with the *Ontario Heritage Act* [s.48(1)].

- **unearth a burial site**

If you find a burial site containing human remains, you must immediately notify the appropriate authorities (i.e., police, coroner's office, and/or Registrar of Cemeteries) and comply with the *Funeral, Burial and Cremation Services Act*.

### Other checklists

Please use a separate checklist for your project, if:

- you are seeking a Renewable Energy Approval under Ontario Regulation 359/09 – [separate checklist](#)
- your Parent Class EA document has an approved screening criteria (as referenced in Question 1)

Please refer to the Instructions pages when completing this form.

## **APPENDIX B**

### **NOTICE - PROCEDURES FOR PROCESSING APPLICATIONS FOR PLANS OF SUBDIVISION/CONDOMINIUM PRIOR TO SUBMITTING APPLICATION**

---

#### **PRE-CONSULTATION WITH COUNTY, LOCAL MUNICIPALITY AND OTHER PUBLIC BODIES**

The County's assessment of a subdivision/condominium is based on environmental and land use planning factors. A major consideration is conformity with the Official Plan and municipal zoning by-law. Applicants should discuss their proposal with the County and local municipality to ensure that the proposal conforms to the official plan and local zoning standards.

Should a proposal potentially impact other Provincial Policy interests or, should the development of the site require a permit/certificate, applicants should discuss their applications with the affected Provincial Ministry or the permitting agency and prior submitting an application. For example, permits may be required from the Conservation Authority for alterations to shorelines or for docks. Another example would be the Ministry of Tourism, Culture, and Sport advises that an archaeological assessment may be required if a site has archaeological potential. If you have any questions, contact the County Planning Department.

#### **PRE-CONSULTATION WITH PRINCIPAL AUTHORITY (PART VII, BUILDING CODE), MTO**

Where development is proposed on private services, and/or potentially impacting on Provincial highways requiring entrance permits from the Ministry of Transportation (MTO), applicants are to 1) complete the County's subdivision/condominium application and prepare the draft plan, 2) submit the application, draft plan and appropriate studies to the County 3) When the application is deemed to be complete it will be circulated to the Principal Authority for Part VII of the Building Code and/or the MTO Corridor Policy Office (these agencies may have fees which are not included in the application fee); 4) complete the instructions of the Principal Authority/MTO prior to the inspection of the property. For example, the staking of the site and/or a copy of a hydrogeological assessment and/or a terrain analysis may be required by the Principal Authority.

Upon completion of the inspection and report, the Principal Authority/MTO will forward comments to the applicant/agent and County. Delay on these comments may delay or restrict the County's ability to make a decision or issue a favourable decision on the subdivision/condominium.

#### **FINAL APPROVAL OF SUDIVISION PLAN**

Upon issuance of final approval of a plan of subdivision or condominium, or a phase thereof, a fee of \$610.00 (or as otherwise updated year-to year) is to be paid to the United Counties of Stormont, Dundas and Glengarry
