PROJECT DESCRIPTION

Please provide a detailed description of the proposed project and scope of work. Explain how the project will improve or rehabilitate the existing building(s) or property, and how it aligns with one or more **SDG Regional Economic Goals**. Please indicate which of the following Regional Economic Goals the project addresses (Check all that apply):

- ☐ Stimulate investment in tourism and in the agricultural sector by funding diverse, on-farm expansions and agri-tourism.
- ☐ Encourage redevelopment and private sector investment in existing building stock within the County to support employment, reduce the number of vacant commercial, institutional and industrial buildings, and increase the assessment base.
- ☐ Increase the amount of permanent roofed accommodations within the County to specifically accommodate for an increase in tourism establishments that cater to short-term accommodations.

Sample description: *"I plan to convert a 2,000-square-foot former butcher shop, into a new Italian restaurant. The building is located on Main Street in Town X and has been vacant for 30 years. The building is covered in graffiti and has experienced property standards issues, due to its vacancy. The location and structure of the building make it an ideal new location for our business. We intend to apply for grants to improve the interior and exterior; to create a new commercial kitchen and accessible bathrooms. We will also be applying for signage grants and for grants to offset the cost of our architectural drawings and building permits. As part of our property improvement grant, we will also be applying for new interlock stones and fencing surrounding our proposed new terrace for the restaurant.*

Our project will help to stimulate tourism within our community. Our restaurant will be the only Italian restaurant within 50 km. We intend to source local ingredients, where possible. We are bike friendly and will help to promote the local cycling networks. Our business is expected to create 6 full time and 3 part-time jobs. This project will improve the value of this building and will help reduce the number of vacant commercial properties. As part of our project, but not as part of this application, we also intend to convert the upper story of this building into two new apartment units, which will help address housing shortages within the area. The total investment we are making on this project is \$0.00 the additional cost to create the two new apartments represents an additional investment of \$0.00"
